IITB-Monash Research Academy PhD Scholarships

The **IITB - Monash Research Academy** (The Academy) is an exciting partnership between the**Indian Institute of Technology, Bombay (IITB)** and **Monash University, Melbourne (Australia)**.

The Academy's jointly-badged PhD program has students who will undertake interdisciplinary research in the fields of science, technology, computer science, IT, engineering, humanities & social sciences, design and mathematics.

The Academy's June 2016 intake will focus on attracting excellent and highly motivated students to work in areas of applied research particularly or problems that are important to many of The Academy's industrial partners.

Candidates will:

- Receive a generous schorlarship,

- Receive co-supervison from Professors at IITB and Monash,

- Receive a jointly-badged PhD degree from IITB and Monash,

- Have access to world-class research facilities,

- Gain International research experience,

- Receive a special fellowship to visit Monash University,

- Strong industry exposure in industry sponsored projects.

If you have:

* a first class Masters degree from reputed university, or a Bachelors Degree in Eng/Science (with high GPA),

you should take advantage of this unique opportunity to acquire an internationally recognized qualification and pursue an exciting career in research.

The Academy will offer attractive **PhD scholarships** to successful candidates.

Although not a prerequisite, candidates who have been highly placed in **GATE, GRE, CSIR-NET, JAM** or any other competitive exam and who have industry experience are strongly encouraged to apply.
